"Transnational projects in Slovakia"

29.11.2022

Feel inspired

Transnational projects in coop. with AWEX

INNOVATION – DECARBONIZATION OF THE SUPPLY CHAIN

- ✓ Carmeuse Slovakia, s.r.o with origins in Wallonia
- ✓ In October 2022, three new lime kilns at the Košice lime plant were inaugurated at US Košice Steel
- ✓ The inauguration represents a clear milestone in the quest to reach **#carbonneutrality** by 2050
- ✓ The kilns were engineered by Carmeuse's unit TECforLime. They reduce the **#carbonfootprint** of the Košice site by 60.000 tons of CO2 p.a. and allows the supply of less carbon intensive lime products to key customer.

HYDROGEN – H2 VALLEY: WALLONIA & REGION OF KOŠICE

- Hydrogen valley between the Walloon Region and the Košice Self-Governing Region
- Fruitful discussion with the Košice University of Technology and with Clusters from Wallonia

"Innovation potential of Slovakia"

Opportunities of Cooperation

□ Opportunities of cooperation with our Wallonia Business & Competitiveness Clusters

✓ Environment and Sustainable Development

✓ Transversal Technologies

PLASTICS INNOVATORS

✓ Mobility and Transport

✓ Environment and Sustainable Development

✓ Food – Health

✓ Transversal Technologies
