# Digital Europe: Next Steps

## A European Agenda for the Digital-9+

### Discussion paper

Prepared by Lisbon Council Research for the Digital-9+ Ministerial (Informal) in Tallinn, Estonia. The Digital-9 are Belgium, Denmark, Estonia, Finland, Ireland, Luxembourg, Netherlands, Sweden and the United Kingdom. Czech Republic and Poland have observer status.

#### 1. The Economic Challenge

Overall, the European economy is doing well.<sup>1</sup> Gross domestic product in the 12-month period ending 30 June 2018 grew 2.1% in both the eurozone and the European Union (EU28) – a comfortable rate, slightly behind the United States, but respectable for an advanced industrial economy.<sup>2</sup> Unemployment, too, is falling, with some 114,000 Europeans finding jobs in August 2018, bringing the unemployment rate down to 6.8%, its lowest in nearly a decade.<sup>3</sup>
