Improve Service Delivery

PRIVATE SECTOR

- Be Agile
- Embrace Elasticity
- Leverage Data

HOW?

- No „silver bullet“
- No product to buy...

- **Enable Culture Change**
- Embrace public Cloud

EXAMPLE

Cancer Care Ontario

- Hospital Triage Solution
- Scalable, across Ontario
- Real-time ER load reports
- **Public Cloud**

What is mySA GOV?

mySA GOV is a new online account and app which will provide single account access for South Australian Government services.

The mySA GOV account enables South Australians to access personal information and complete transactions for their vehicle registration and licence. This includes checking demerit points, completing medical self-assessments, and setting up direct debit.

The mySA GOV app enables South Australian licence holders to digitise selected government-issued passes and licences and store this information on their Apple or Android device.

To login to the app, you must have a mySA GOV account.
