space age.**

Information

We are built on ability to share and pass on information

It allowed us to progress from stone age to the space age.

In the age of digital communication and high tech research, sharing data is more important than even before.

This is especially important for healthcare!

Budget

- Was, is, will be – **FINITE**

Budget

- Was, is, will be – FINITE
- It is all about **opportunity costs**

Decisions

- It is about **uncertainty** and there is no antidote to it.

Decisions

- It is about uncertainty and there is no antidote to it.
- In healthcare, we have **data**.

Data

Organized and Processed.

Data

Organized and Processed.
