

## Spring ITAPA 2021 • 10 June 2021 (Thursday)

7:30 – 8:30	<b>Registration of participants, morning coffee</b>		
8:30 – 10:00	<p><b><i>Vision for the country</i></b> Chairman: Samuel Arbe, ITAPA</p> <p>The country is defined by a common vision. And we now need just such a common vision that will fill Slovakia with positive energy and that mobilizes people. Slovakia has ideas today, it has the resources, it has the opportunity. Now is the historic moment to become an example again that will attract the attention of the whole region with its reformist zeal. Discussion of top representatives on the topic of how to make Slovakia a tiger in Central Europe.</p> <p><b>Opening speech</b></p> <p><b>Keynote:</b> Eduard Heger, Prime Minister of the Slovak Republic  <b>Keynote:</b> Veronika Remišová, Deputy Prime Minister of the Slovak Republic and Minister of Investment, Regional Development and Informatization of the Slovak Republic  <b>Keynote:</b> Vladimír Lengvarský, Minister of Health SR</p> <p><b>DISCUSSION</b>  invited keynote speakers  Ján Kyselovič, CVTI  Ladislav Miko, EC Representation in Slovakia</p> <p><b>Slovakia at the forefront of artificial intelligence with the scope of the human brain: The fastest supercomputer in the world to be built in Slovakia - Radoslav Danilák, Tachyum</b></p>		
10:00 – 10:30	<b>Coffee-break</b>		
10:30 - 12:00	<p><b><i>Why we need Value Based Healthcare?</i></b> Chairman: Dárius Richter, Roche Slovensko</p> <p>The concept of Value Based Healthcare brings a fundamental change in philosophy. The added value of healthcare for the patient in relation to costs is becoming important in the financing of healthcare. In countries where the concept has been enforced by healthcare, it has become significantly more effective and far more open to innovation. Is Value Based Healthcare a way for Slovakia as well?</p> <p><b>Opening speech</b></p>	<p><b><i>Cyber security</i></b> Chairman: Peter Matej, incident.sk</p> <p>Cyber security in various areas of our lives - case studies of successful and innovative projects.</p> <p><b>Opening speech</b>  <b>APT attacks in Europe - Robert Lipovský, ESET</b>  <b>Priorities of cyber and information security in public administration - Martin Florian, Ministry of Investment, Regional Development and Informatization of the Slovak Republic</b></p>	<p><b><i>Digital economy</i></b> Chairman: Radoslav Repa, MIRRI</p> <p>Only big goals can lead to big results. Slovakia has more than just a passive wait until the global trends of digital transformation happen to us. We know trends and we can anticipate them. Why not focus on what Slovakia can be at the forefront? Is it artificial intelligence? Is it high performance counting? Is it support for innovation?</p> <p><b>Opening speech</b>  <b>IGNITE SESSION: How eMobility works with digitization - Ján Zuštiak, AgeVolt</b>  <b>Introduction Juraj Bárđy, Alistiq</b>  <b>Introduction Mária Lelovský, ITAS</b></p>

	<p><b>Value Based Healthcare: a patient centric strategy for better outcomes and sustainable healthcare delivery</b> - Thomas Metcalfe, Roche</p> <p><b>Value-base healthcare: is this strategy that will fix healthcare?</b> - Róbert Babefa, SAS Biomedical Center</p> <p><b>Digitization for better healthcare for the benefit of the patient</b> - Tomáš Rohožka, Asseco Central Europe</p> <p><b>DISCUSSION</b> panel speakers Pavol Lepey, Roche Slovakia Lukáš Palaj, Ministry of Health, SR Michal Štofko, Association of Health Insurance Companies Dominik Tomek, Faculty of Medicine SZU</p>	<p><b>Cybercrime - a silent threat in healthcare</b> - Ján Ščamba, SIEMENS</p> <p><b>Fatal consequences of underestimating cyber risks in digital innovation in healthcare</b> - Roman Varga, DÔVERA Health Insurance</p> <p><b>Adaptive security for SOC teams, orchestration, automation and response</b> - Peter Kočík, FORTINET</p> <p><b>Update from 5G world – business, security, regulations</b> - Rafał Jaczyński, Huawei Technologies</p> <p><b>DISCUSSION</b></p>	<p><b>Introduction</b> Gabriel Galgóci, American Chamber of Commerce in Slovakia, Center for Artificial Intelligence (CUI)</p> <p><b>Introduction</b> Lukáš Demovič, SAV</p> <p><b>Introduction</b> Vladimír Bužek, SAV</p> <p><b>Introduction</b> Michal Géci, Impact Hub</p> <p><b>DISCUSSION</b></p>
12:00 – 13:30	<b>OBED</b>		
13:30 – 15:00	<p><b>How to start building European types of modern hospitals in Slovakia as well?</b> Chairman: Peter Balík, MIRRI</p> <p>The aim of this panel will be to present successful projects for the implementation of health infrastructure in the EU. We will focus on the process of preparation and implementation of the new University Hospital in Krakow, which was co-financed by ESI Funds. We will also present the project of the Stradini Research Hospital in Riga and the Nordsjælland Hospital in Denmark. The panel will also include a representative of the EIB, who will present the possibilities of co-financing health projects through "blended finance" and repayable resources.</p> <p><b>Opening speech</b></p>	<p><b>Digital state within reach</b> Chairman: Ján Bučkuliak, Úrad vlády SR</p> <p>The aim of the panel is to describe the plan to build a truly functioning digital state by the end of the election period from four perspectives. The first is the front-end, that is, what citizens will see. Another is the architecture of the digital state, that is, how it will all work. The third is the actual implementation of the "project" of building the digital state, that is milestones, connections, resources, outputs. Finally, there is the question of how to ensure efficiency and added value, so that we do not have to wonder for a few years whether it was worth the investment.</p> <p><b>Opening speech</b> <b>IGNITE SESSION: Web 3.0 semantic maps - an innovative tool for public administration and education</b> - Michal Danilák, Lewik</p>	<p><b>Resources for reform – discussion panel</b> Chairman: Tamás Szóke, Grantexpert</p> <p>Quite a lot of resources come to Slovakia. In fact, it seems even more than it can successfully absorb. The existing programming period is facing the problem of effective exhaustion. At the same time, new ones need to be prepared. And with that comes the Renewal and Resilience Fund. So where are we really? Will we be able to exhaust the available resources? How do we stand preparing for the new era? When will we see the first project calls? And how will the Recovery and Resilience Fund actually work? And in particular, how to prepare for an efficient and fast drawing money that moves the country forward?</p> <p><b>Opening speech</b></p>

	<p><b>If the radiologist does not come to the scanner, the scanner must come to the radiologist</b> - Simona Sadloňová, Siemens Healthineers</p> <p><b>DISCUSSION</b> panel speakers Marcin Jędrychowski, University Hospital Krakow Adam Kozierkiewicz, JASPERS, European Investment bank Miriam Lapuníková, FNsP F. D. Roosevelta Banská Bystrica Henrik Schødts, Not a Box Gerd-Uwe Weller, EIB Group Office in Slovakia</p>	<p><b>IGNITE SESSION: Hybrid operation is the future. Also in public administration?</b> - Oto Nad', BRACKETS by Triad <b>Key presentation</b> - Marek Antal, Ministerstvo investícií, regionálneho rozvoja a informatizácie SR <b>An evening in eGov utopia</b> - Ľubor Illek, Slovensko.Digital <b>How to ensure the availability of digital applications</b> - Roman Čupka, Flowmon <b>New digital world</b> - Andrew Campbell Watson, Huawei Technologies</p> <p><b>DISCUSSION</b> panel speakers Emil Fitoš, ITAS</p>	<p><b>IGNITE SESSION: Methodology of IT project management in state administration in Slovakia</b> - Róbert Kormaňák, member of TK37 at UNMS SR for information technologies</p> <p><b>DISCUSSION</b> Milan Fiľa, National Business Center Nitra Lenka Gabrhelová, Ministerstvo financií SR Michal Kaliňák, Association of Towns and Communities of Slovakia Ján Ridzoň, Ministry of Investment, Regional Development and Informatization of the Slovak Republic</p>
15:00 – 15:30	<b>Coffee-break</b>		
15:30 – 17:00	<p style="text-align: center;"><b>Digital innovation in healthcare</b> Chairman: Ján Králik, healthcare expert</p> <p>Slovakia is a European leader in digital innovation in the healthcare sector. This is how European newspaper headlines could sound like this in 2025. What must Slovakia do to flood European news sites in the future? To support digital innovation in healthcare, we need to rethink the healthcare funding system, which does not take into account innovative practices and technologies. Public resources for digitization have clearly failed and have almost zero impact, especially in the health sector. During the panel, you will learn about specific examples of digital innovation.</p> <p><b>Opening speech</b> <b>IGNITE SESSION: COVID Helper – Dagmar Celúchová Bošanská, Alistiq</b> <b>What is slowing down the onset of artificial intelligence in healthcare today?</b> - Martin Kavec, Siemens Healthineers</p>	<p style="text-align: center;"><b>The future in the clouds</b> Chairman: Peter Weber, ITAS</p> <p>The amount of data available is growing exponentially. Their storage complexity increases, user requirements change. Is the future of their administration in the cloud? How is the state prepared for this and does it use these services sufficiently? The aim of the panel will be to describe the current situation in Slovakia, but also to bring the view of companies on our future in the clouds, the difference between public cloud services, or the use of private cloud services.</p> <p><b>Opening speech</b> <b>IT and cloud yesterday, today and tomorrow</b> - Juraj Pankúch, Ministry of Investment, Regional Development and Informatization of the Slovak Republic <b>The position of the community cloud in the state IT environment</b> - František Baranec, INTERWAY <b>Cloud adoption patterns for European public sector agencies and the sovereign cloud option</b> - Mauro Capo, Accenture</p>	<p style="text-align: center;"><b>Cyber Security Action Plan – discussion panel</b> Chairman: Matej Šalmík, National Cyber Security Center SK-CERT</p> <p style="text-align: center;">We are in a world of rapidly deteriorating security situation in cyberspace. Attacks are becoming more sophisticated, organized and more damaging. The aim of the panel is to present a new way and measures by which the Slovak Republic protects itself against cyber security threats.</p> <p><b>Opening speech</b></p> <p><b>DISCUSSION</b> Branislav Boháčik, General Prosecutor's Office of the Slovak Republic Martin Florian, Ministry of Investment, Regional Development and Informatization of the Slovak Republic Rastislav Janota, National Cyber Security Center SK-CERT Jaroslav Oster, forensic expert in the IT industry</p>

	<p><b>DISCUSSION</b> panel speakers Martina Antošová, Center for Science, Research and Development Support Pavol Capek, NCZI Marian Faktor, DÓVERA Health Insurance Štefan Korec, specialist in artificial intelligence in oncology</p>	<p><b>The future of cloud analytics is already here</b> - Ivan Kasanický, SAS Slovakia <b>Government Cloud in PPP model (public-private partnership)</b> - Tomáš Mydliar, Dell Technologies</p> <p><b>DISCUSSION</b> panel speakers Peter Kulich, Slovensko.Digital Martin Sulík, NASES</p>	
--	---	---	--

<p><b>18:00 – 19:30</b></p>	<p style="text-align: center;"><b>ITAPA Open Talk: Plan vs. the reality of the renewal of Slovakia</b> Chairman: Zuzana Kovačič Hanzelová, journalist</p> <p style="text-align: center;">The public discussion within the spring ITAPA 2021 event will offer the view of politicians and experts on the necessary reforms of Slovakia. Will the approved Recovery Plan contribute to fundamental reforms of the Slovak economy and society? Will the plan be translated into reality? And what should be the ambition of politicians and experts in the effort to move Slovakia into the position of the Central European tiger? In the Open Talk, we will talk openly about reforms, the economy, justice and social change.</p> <p><b>Speakers:</b> Marek Antal, Ministry of Investment, Regional Development and Informatization of the Slovak Republic Miriam Letovanec, former director of the Implementation Unit of the Office of the Government of the Slovak Republic Ivan Mikloš, MESA 10 Michal Vašečka, Bratislava Policy Institute</p>
