Exchange of Documents in Europe

Per-Olav Gramstad
Program Manager - Interoperability in eGovernment

IDABC
Directorate-General for Informatics
European Commission

IDABC

A European Commission Programme

In the Directorate for Informatics, which is the Commission Internal ICT Department

Together with Member State (27+) Deprtments of ICT

Facilitating hard deliverables as **tools, services and solutions**

And soft deliverables as **professional networks, virtual and real meetings**

Per-Olav Gramstad

Scandinavian – Norwegian nationality, **living in Sweden** and **seconded from** my position at the National **Danish IT and Telecom Agency**

Programme Manager – Working with National Expert Groups for **eID, Middleware and CAMSS**

Background – Starting off with **technology**, moving on to **business** and today in **policy and regulation**

My pride and joy – CAMSS, Common Assessment Methodology Standards and Specifications

Starin' at the sun

... starin' at the sun
Afraid of what you'd find
if you took a look inside ...

U2, 1997

... If you judge a book by the cover,
Then you'd judge the look by the lover
I hope you'll soon recover,
Me I go from one extreme to another ..

ABC, 1982

How the customer explained it | How the Project Leader understood it | How the Analyst designed it | How the Programmer wrote it | How the Business Consultant described it
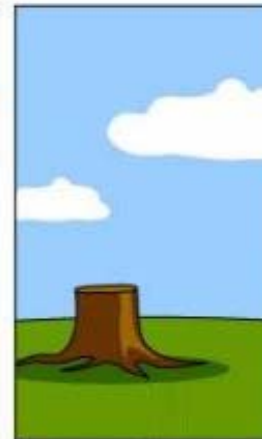

How the project was documented | What operations installed | How the customer was billed | How it was supported | What the customer really needed

„publiziert" ist nicht gefunden…

„gefunden" ist nicht gelesen…

„gelesen" ist nicht verstanden…

„verstanden" ist nicht gewollt…

„gewollt" ist nicht gekonnt…

„gekonnt und gewollt" ist nicht getan…

„getan" ist nicht beibehalten…

eGovernment Services

- **Everyone is closest to themselves.**

- **Creators**
  - *All Process and IPR*
- **Implementers**
  - *All Deliverables*
  - *except On-going Support and IOP*
- **Users**
  - *All Deliverables and Open Change*

Requirements   Stakeholders

1. Open Meeting
2. Consensus
3. Due Process   } Creation
4. Open Change
5. Open IPR
6. Open Documentation   } Implementation
7. Open Access   } Use
8. On-going Support
9. Open IOP

- **Public Business aims for more symmetrical solutions**

- **Private Business aims for less symmetrical solutions**

Is this right or wrong?

**No,
just different!**

Do Private and Public e-Business run in parallel without ever crossing?
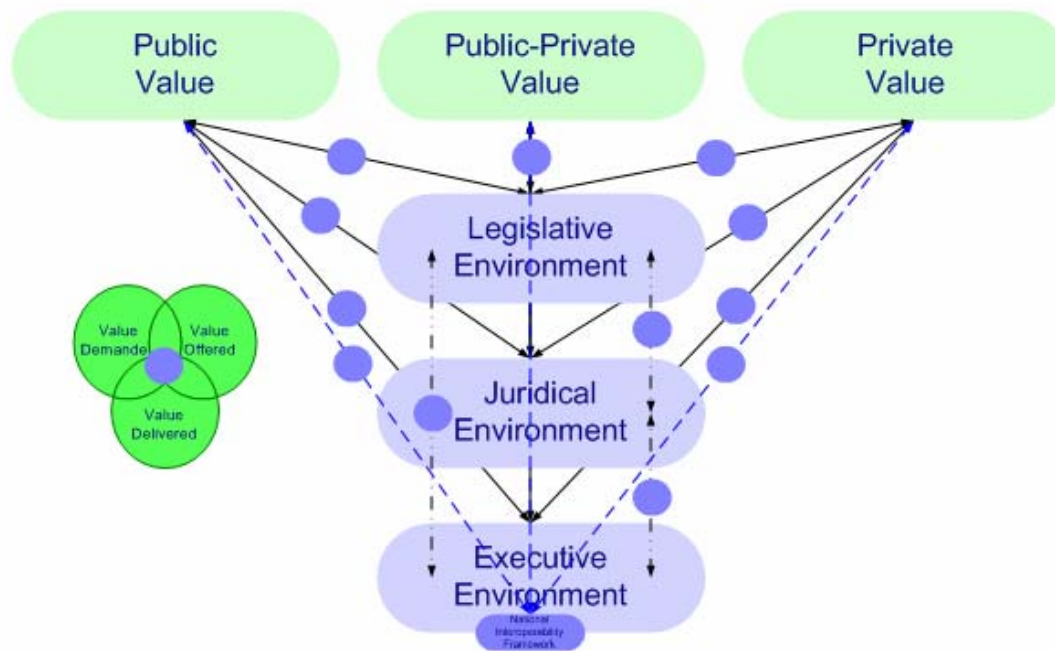

**No, they keep meeting and running into, over and under each other but preferably separated in separation of concerns, SoC.**

- **Politics provide Policy**
- **Strategy and Tactics apply means to fulfil the ends of Policy**
- **Strategy can be encapsulated in sets of Principles**
- **Fundamental to Grand Strategy is the Diplomacy**
- **Strategy define the goals for a campaign**
- **Tactics, the methods for achieving the goals**
- **Standards and Specifications provide guidance in Procurement**

This means nothing to me, pls. an example

- **Symmetrical Policy for Level Playing Field**
- **Strategy can be encapsulated in Principles of Interoperability, EIF**
- **Fundamental to Interoperability Strategy is the Standardisation, Diplomacy**
- **Strategy define the goals for a campaign, Open Standards**
- **Tactics the methods for achieving the goals, CAMSS is our method.**
- **Our campaign is procurement, word processing procurement.**

Alright, in the name of Level Playing Field we're embarking on an Document Exchange campaign using CAMSS

Preference in Standards and Specifications				
Public Business Area	Document Exchange	Binaries	DOC	
		MLs without X	HTML	
		XMLs	ODF OOXML	
		Non Revisable	PDF XPS

You Are Here!

Campaign: **Document Exchange**
Policy: **Level Playing Field**
Diplomacy: **Standardisation**
Strategy: **Migration towards Openness, EIF v2.0**
Tactics: **CAMSS**

P1 The standard is fully documented and accessible by the public (Principle)

    A1 Open documentation (Aspect)

        C 1.1 Access to all preliminary results documentation (Criteria)

        C 1.2 Access to all final results documentation

        C 1.3 Access to committee meeting notes

        C 1.4 Access to documentation of procedures, governance policies, annual reports, etc.

        C 1.5 Access to documentation of copyright on published documents

- **From 5 MS (27+) in 2006**
- **To 19 MS (27+) in 2008**
- **Phase 1: Establishing Criteria (Nov 08)**
- **Phase 2: Using Criteria in MS assessment (Q2 2009)**
- **Public Business interested**
- **Private Business interested**
- **Standardisation Bodies interested**
- **Other economic areas than EU interested**

- **TAC recommendations**
- **PEGSCO recommendations**
- **Work in Progress**
- **Member States looking into their needs**
- **ISO looking into the maintenance of several Formats**
- **Major suppliers getting ready to implement several Formats**

Member States using CAMSS enabling other Member States to re-use already done assessments
