

DR. FRANZ BAILOM

The disruptive power of AI

Implications for businesses and nations

The passion that drives us at
INNO-VERSE

Simplify Innovation with AI

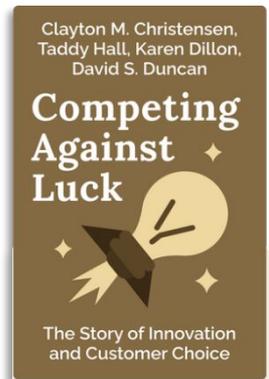

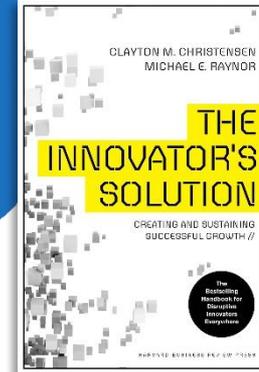

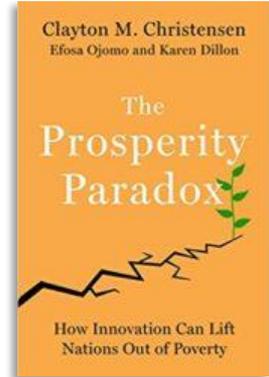

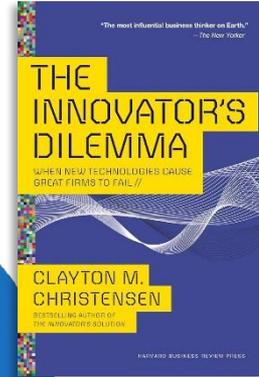

Dr. Franz Bailom

What impact will AI have on Companies?

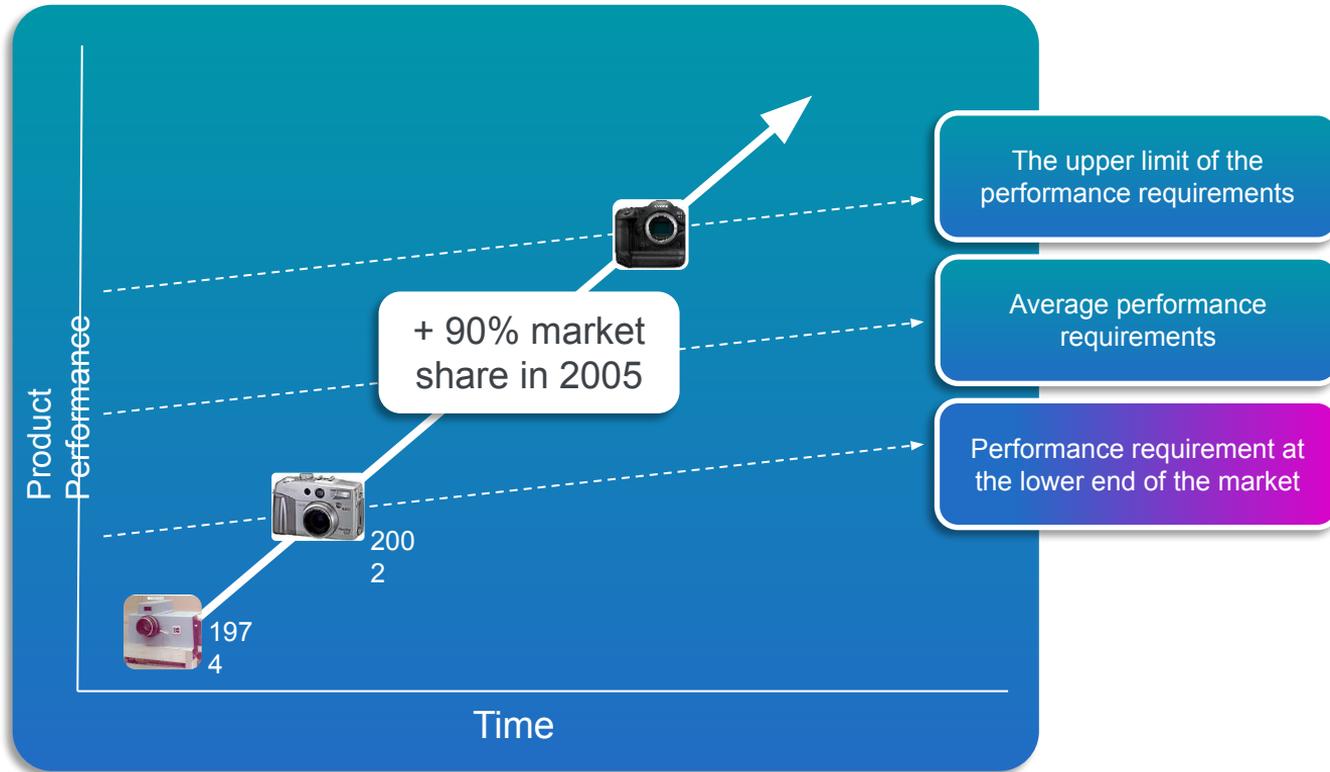

Prof. Clayton Christensen (1952- 2020)
Harvard Business School
Most influential business thinker

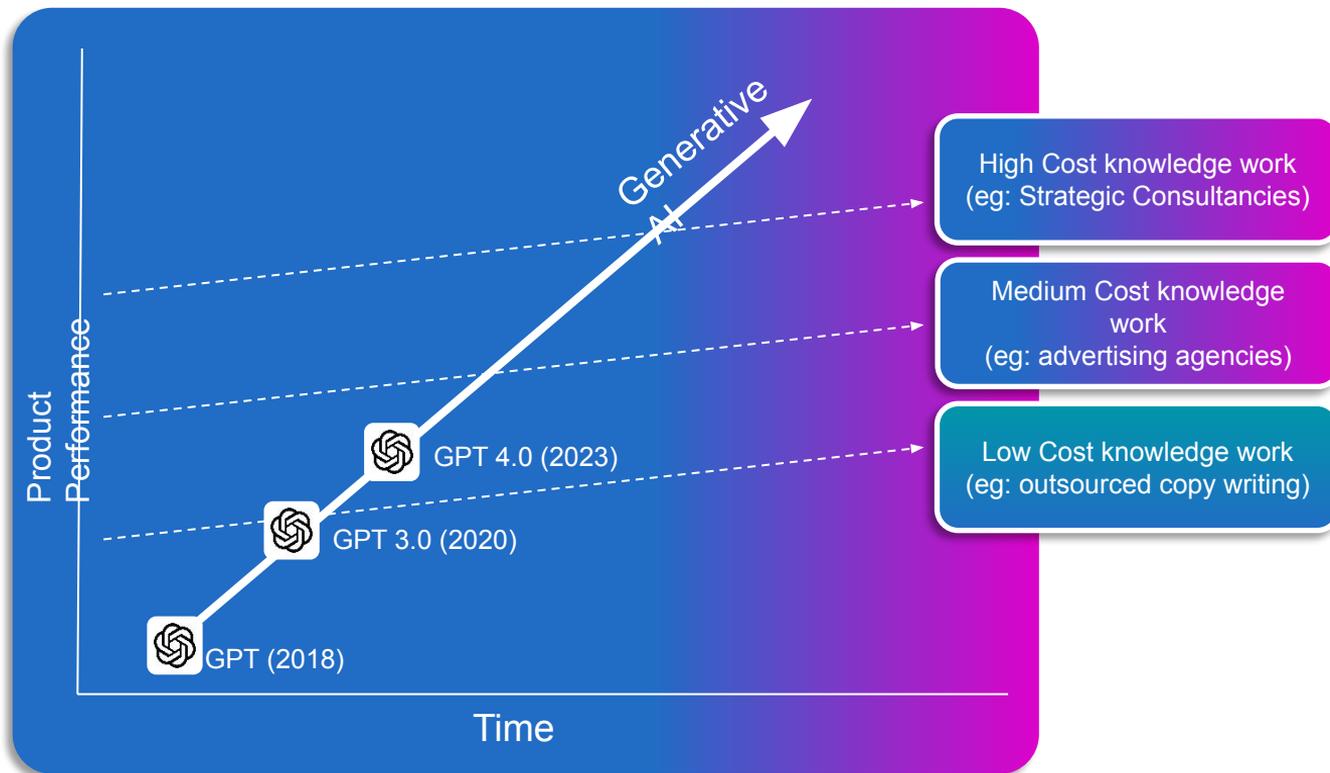

Prof. Clayton Christensen

Principles of disruptive developments

Source: Board of Innovation, 2023, *The innovators dilemma* (Clayton Christensen)

Generative AI is one of the most disruptive technologies we have ever seen

How AI affects certain industries

Healthcare

- » enabling more precise diagnoses,
- » personalized treatment plans
- » predictive analyses to prevent diseases
- » ...

Agriculture

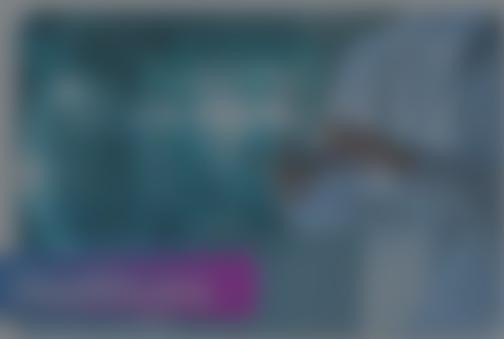

- » precision farming
- » crop monitoring
- » predictive analytics
- » autonomous agricultural machinery.
- » ...

Industry

- » enabling smart factories
- » predictive maintenance
- » quality control
- » autonomous robotics on a whole new level...

How AI affects certain industries

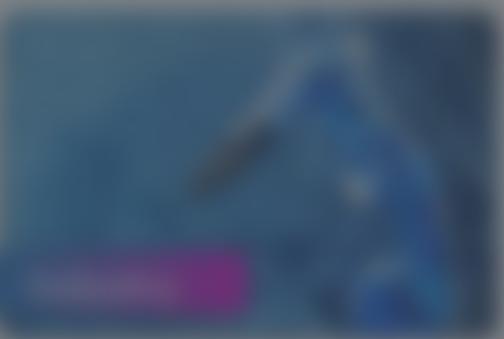

- 1. **Diagnosis and treatment**
 - 2. **Personalized medicine**
 - 3. **Medical research**

+ 1.000 Examples from all over the world

The image displays a grid of 30 AI innovation examples, each represented by a thumbnail image, a title, a date, and a star rating. The examples are as follows:

- MISTRAL** (AI UNREAD) - Large - a European as an alternative to... (28 Feb 2024) ★★★★★
- INDOOR AIR QUALITY** (AI UNREAD) - Innovative sensor detects formaldehyde (28 Feb 2024) ★★★★★
- AI-supported inspection system** (AI UNREAD) - as a new basis for concrete infrastructure maintenance (28 Feb 2024) ★★★★★
- Biohybrid robots** (AI UNREAD) - as adaptive and self-developing technology (28 Feb 2024) ★★★★★
- Multimodal AI technology** (AI UNREAD) - in versatile new AR glasses (28 Feb 2024) ★★★★★
- Art show hosted by AI** (AI UNREAD) - (28 Feb 2024) ★★★★★
- Volcanic Eruptions: Connection of Musicology and Artificial Intelligence** (AI UNREAD) - Creates Forecast (28 Feb 2024) ★★★★★
- Are fingerprints really as unique as previously believed?** (AI UNREAD) - (28 Feb 2024) ★★★★★
- Autonomous robots are building structures for space stations on the Moon and Mars** (AI UNREAD) - (28 Feb 2024) ★★★★★
- World's largest IT forces to combat super election year** (AI UNREAD) - (25 Feb 2024) ★★★★★
- Real-time machine emotion recognition** (AI UNREAD) - is intended to create new services and business models. (25 Feb 2024) ★★★★★
- Efficient robot navigation based on insect behavior** (AI UNREAD) - (25 Feb 2024) ★★★★★
- Telerobotics: ESA astronaut controls robot dog from space** (AI UNREAD) - (25 Feb 2024) ★★★★★
- AI in virtual B2B sales: Deciphering emotions, language, and signals of potential customers** (AI UNREAD) - (27 Feb 2024) ★★★★★
- Recognize KI texts as such, even when they have been revised** (AI UNREAD) - (26 Feb 2024) ★★★★★
- Learning platform with integrated AI-assistant for course and exam management** (AI UNREAD) - (22 Feb 2024) ★★★★★
- Wireless floating robot for water monitoring in pipelines** (AI UNREAD) - (22 Feb 2024) ★★★★★
- Combating Climate Change Activity with Generative AI - While Reducing Energy Demand** (AI UNREAD) - (22 Feb 2024) ★★★★★
- Differences in the brain demonstrated for the first time learning** (AI UNREAD) - (23 Feb 2024) ★★★★★
- Pneumatic logic modules enable electronics-free control of soft robots** (AI UNREAD) - (23 Feb 2024) ★★★★★
- AI News: About the concept of Artificial General Intelligence (AGI)** (AI UNREAD) - (23 Feb 2024) ★★★★★
- Smart Writing Set: Handwritten meets AI** (AI UNREAD) - (23 Feb 2024) ★★★★★
- Successful integration of muscle tissue and artificial legs** (AI UNREAD) - (26 Feb 2024) ★★★★★
- Automation with AI in the customer centre: natural conversations and personalisation in real time** (AI UNREAD) - (25 Feb 2024) ★★★★★
- Autonomous robotic assistant identifies cracks and damages in building structures** (AI UNREAD) - (25 Feb 2024) ★★★★★
- Gift for AI: encrypting artistic works against piracy** (AI UNREAD) - (8 Feb 2024) ★★★★★
- More convenient shopping when looks over your shoulder** (AI UNREAD) - (7 Feb 2024) ★★★★★

1000000

10000 Examples from all over the world

What does that mean for European
companies

USA leads the race, China is second

Investments in

AI
USA

249 Billion
USD

China

95 Billion USD

Germany

7 Billion USD

Leading AI Companies
by market
capitalization)

- » Microsoft
- » Alphabet
- » NVIDIA
- » Meta Platforms

- » Tesla
- » IBM
- » Palantir
- » Mobileye

- » Dynatrace
- » Uipath

```
def parsedInput or not self.model:
    return None
text = open(parsedInput) # Add new conversation entry to context

What Clayton Christensen might recommend

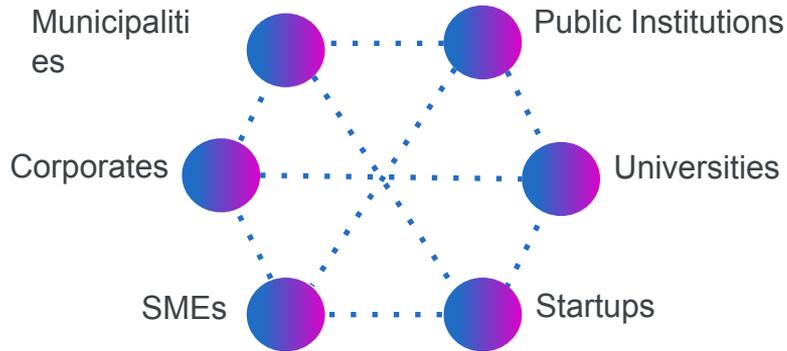

Prof. Clayton Christensen

What countries need to focus on!

Innovation Ecosystems as a solution?

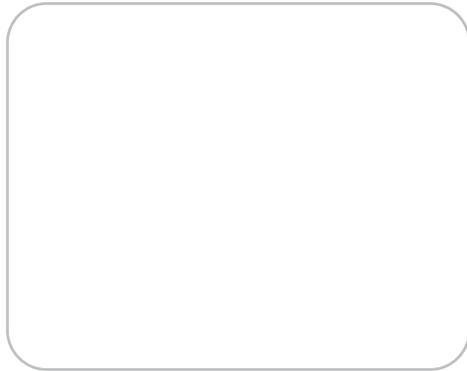

Countries need to:

- » prioritize investments in innovation ecosystems to thrive in the AI economy.,,
- » foster innovation and address ethical, privacy surrounding AI adoption, ensuring a balance between societal benefits and potential risks.,,
