HPE GreenLake for Payments

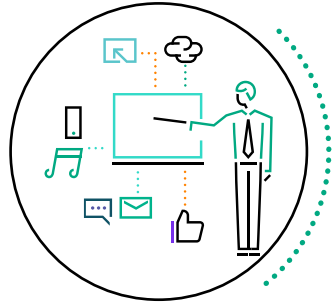

Martin Lomax, FSI Payments Sales Specialist, EMEA

21st November, 2023

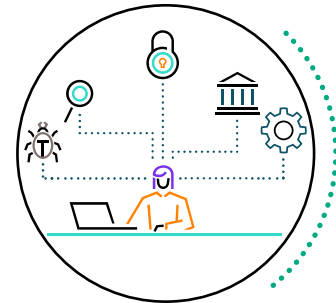

Industry Drivers

HPE GreenLake for Payments

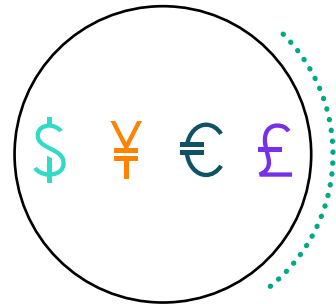

A single supplier integrated Payments **Application as a Service**. Operated and managed by HPE experts with ownership of the full technology stack.

Managed and operated using processes, procedures and tools required to **meet and exceed industry and governmental regulations and security standards** including PCI and DORA.

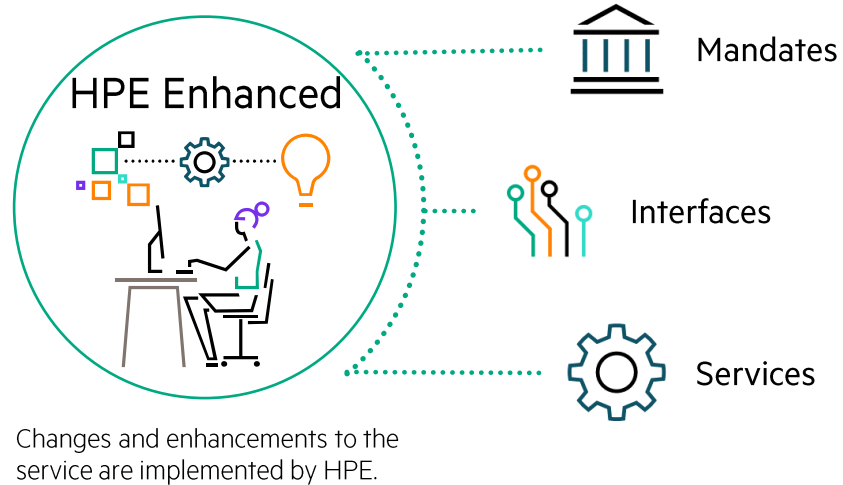

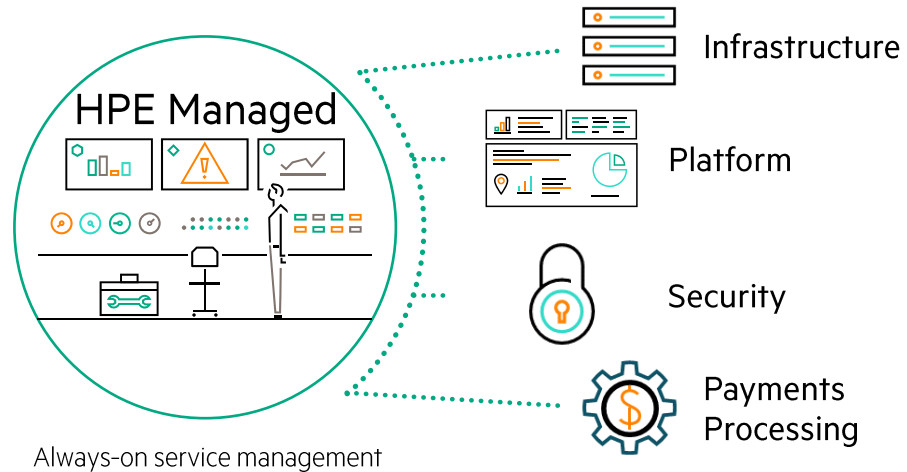

Hybrid cloud technology deployed on-premise and/or hosted. Gives your business agility, by combining **the flexibility of cloud consumption with the benefits of on-premises IT**.

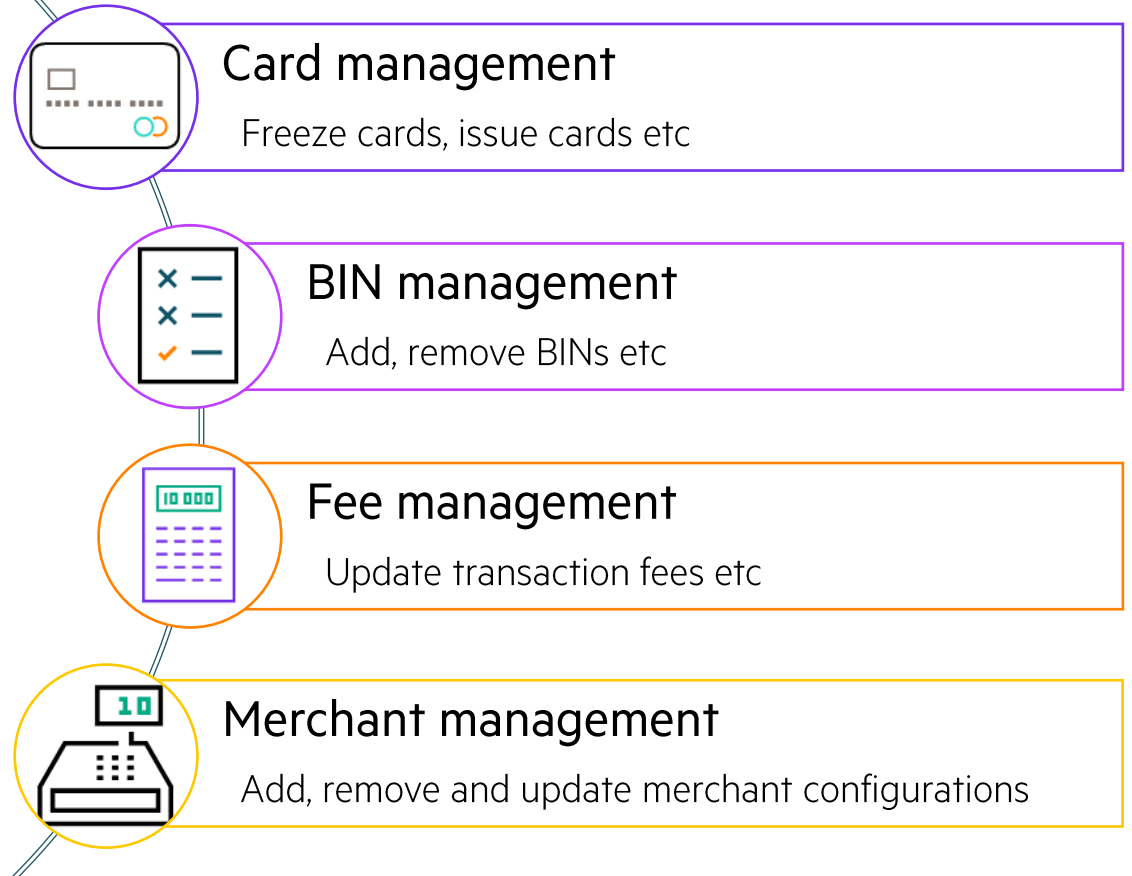

Consumption based commercial model. Reduce operational expenses and free staff to focus on core business activities.

HPE GreenLake for Payments

Customer Managed Day to day activities

Thank you
