

STORK

Secure Identity Across Borders Linked

Secure Electronic Identity Across Europe!

STORK Student Mobility Pilot
ITAPA Congress, Bratislava, Slovakia
25th. November 2011

Vicente Andreu Navarro
Universitat Jaume I, Spain

Stork is an EU co-funded project INFSO-ICT-PSP-224993

What is STORK?

- ✓ Access to on-line services using citizen's own national eID.
- ✓ Seventeen MS have been involved.
- ✓ EU co-funded project
- ✓ Real life testing through six different pilots

Identification

Once you have been successfully authenticated all pages will have a gray background. We recommend that you disconnect (padlock icon right top) when you finish your session, especially if you're using a public computer or sharing it with another user.

When you finish your session, all pages will have a white background again.

Main objective:

The pilot will facilitate student mobility across Europe by providing a common infrastructure for user authentication.

MS involved in the pilot:

 Austria
 Estonia
 Italy
 Portugal
 Spain

Benefits

For the students

Reduce administrative burden

Early completion of the registration formalities

Provide faster, safer and easier access to services

For the administrative services

Easier procedures

Better quality of service

Avoid in-person registration and authentication

Correct solving of critical situations

Improved data quality

Challenges

Sustainability

ISA work program 2011, two actions:

- ECAS-STORK integration
- STORK sustainability

CIP ICT PSP Call 5

- STORK 2.0 will include also a new pilot linked to the academic world

Demonstration of the functionality

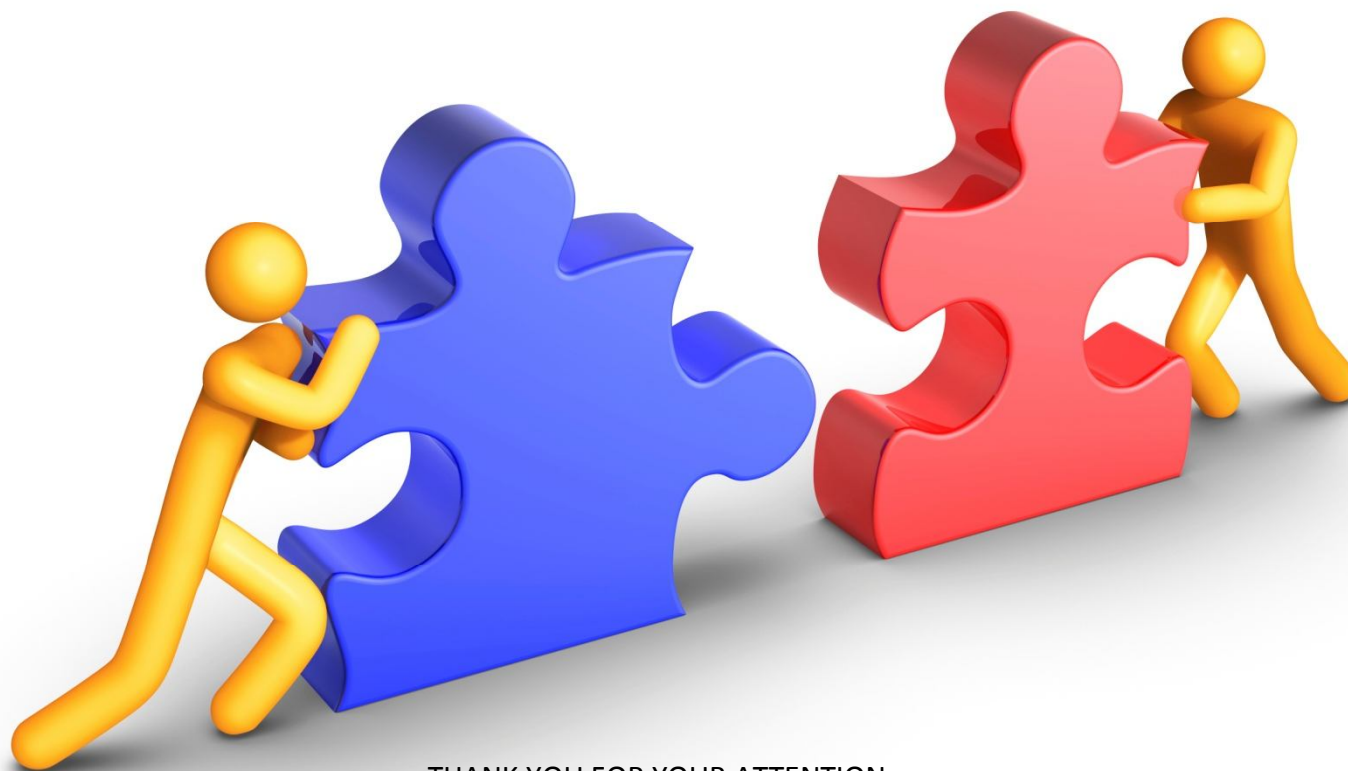

The screenshot shows a Firefox browser window displaying the website of the Instituto Superior Técnico (IST) at www.ist.utl.pt. The browser's address bar and tabs are visible at the top. The website header includes the IST logo and navigation links for 'Alunos', 'Candidatos', 'Docentes', 'Pessoal', and 'Alumni'. A main banner for the 'Mestrado Erasmus Mundus em Biologia de Sistemas – euSYSBio' is prominent, with application dates from 15.09 to 30.11.2011. Below the banner, there are sections for 'Eventos', 'Noticias', and 'Localização'. The 'Eventos' section lists 'XV Semana da Física' and 'Green Campus - Desafio de Eficiência Energética no Ensino'. The 'Noticias' section mentions 'A IST Press edita a 3ª edição do livro Feixes Hertzianos'. The 'Localização' section lists 'Campus Alameda' and 'Campus Taguspark'.
