Warsaw, the 12th of May, 2000

ITAPA 2004, Bratislava

Our priorities:

Functional administration

Expedient budget

Efficiently attended citizen

ITAPA 2004, Bratislava

Examples of realised projects:

- 1. Management of schools
- 2. Public information
- 3. Electronic flow of documents
- 4. Electronic voting (test)
- 5. Pilotages (new driving licence card, car registration document)....

ITAPA 2004, Bratislava

Some details:

Area of the city- near 160 sq. km

Number of inhabitants - 246 000

Number of teachers - near 5 100

Number of students - near 47 000

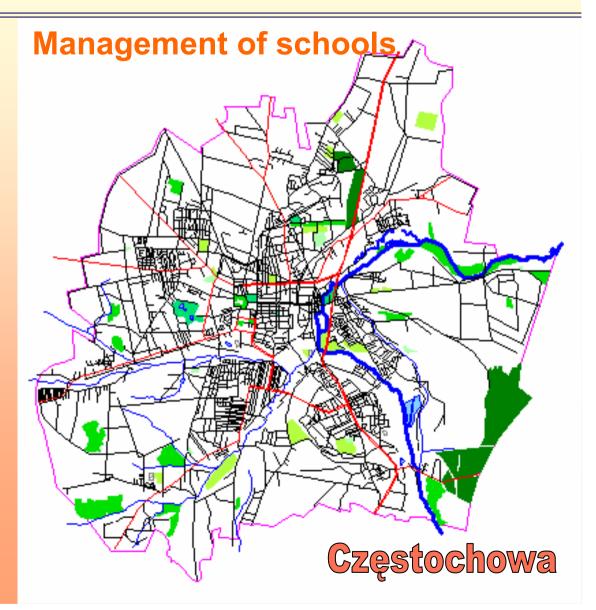

Computer laboratories - 96

Number of schools - 141

Question:

How to administrate all this without paper?!

ITAPA 2004, Bratislava

We need:

- ✓ good connections (links)
- standard of information exchange (between City Hall and schools)
- analitical tools to prepare calculations and presentations of clear results
- expedient budget
- workers, who know how...

ITAPA 2004, Bratislava

Aims of the project:

- Significant reduction of the cost of administration owing to the use of information exchange in electronic form
 - school ⇔⇒ municipality
- Cheaper access to the Internet and other network services (public information)
- Possibility to supervise school's objects by remote control

ITAPA 2004, Bratislava

Aims of the project (continuation):

- Further reduction of the cost of communication's by using net telephony (VoIP)
- Evoiding the losts cost by not working application and obsolete methods of management

ITAPA 2004, Bratislava

Operations realizing project:

- Extra funding of structure of skeleton of academic computer network CzestMAN
- Structure of junction of computer network CzestMAN in the City Hall building

ITAPA 2004, Bratislava

Who is it for?

- Schools / teachers
- Officers / councillors
- Education control
- Parents / guardians
- Students
- And other...

1 piece of printed sheet of paper costs near 0,04 €

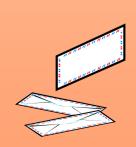

+ additional costs

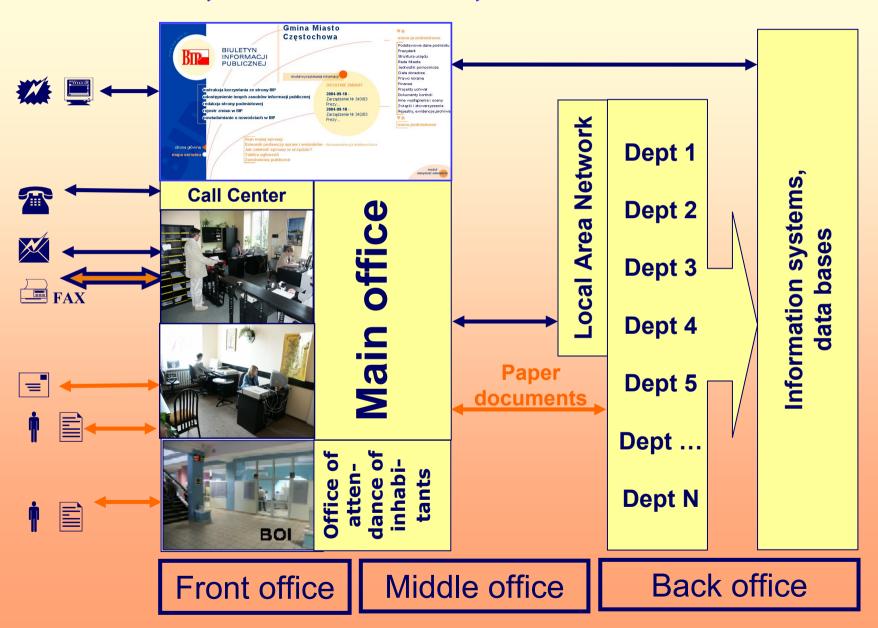

And wasted time...

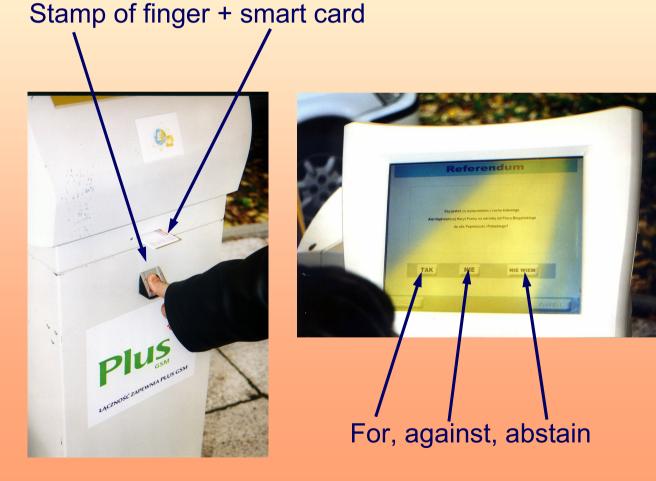

Front-, Middle-, Back Office

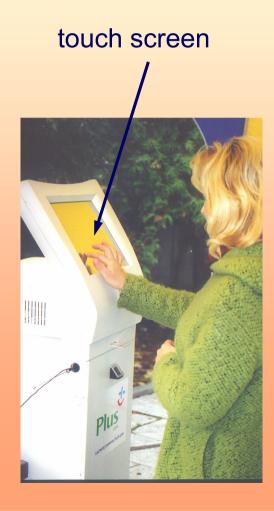

ITAPA 2004, Bratislava

Electronic voting:

ITAPA 2004, Bratislava

E-government is just a conception but

the result depends on the people that set up vision and implement processes...

We have the vision but the law can't be never in this point of time, where our vision is!

ITAPA 2004, Bratislava

The perspectiv for the nearest future:

- Terregov project
- Infokiosks
- Public Internet Acces Points + Electronic intelligent forms
- Full transactional procedures

and office... without clerks (many smaller offices near the people, not one big office in the city centre)

We fight actively not only against sheets of paper. We fight against bureaucracy first...

ITAPA 2004, Bratislava

Thank you for your attention!
